## AUSTRALIA

October 4, 2011

3575	\$.60	Fairy sitting on a mushroom cap ( <i>Amanita muscaria</i> ?)
------	-------	--

## BULGARIA

July 29, 2011

457a	65s	<i>Rhodophyllus sinuatus</i>	Rhodophyllaceae
457b	65s	<i>Inocybe patouillardii</i>	Cortinariaceae
457c	1L	<i>Russula emetica</i>	Russulaceae
457d	1L	<i>Omphalotus olearius</i>	Tricholomataceae

## CYPRUS

October 5, 2011

1158	34c	In a die cut booklet pane of five stamps showing scenes from the fable "The Hare and the Tortoise," two cartoon <i>Amanita muscaria</i> mushrooms are found at the base of the tree by the center stamp. It is unclear from the illustration in <i>Linn</i> 's whether they are part of the stamp vignette, or if they are in the background material between stamps.
------	-----	---

## FRANCE

May 8, 2011

4010	75c	Three mushrooms at the base of France's forest stamp in the 2011 Europa omnibus issue (dry gum and perforated 13¼)
4011	75c	Same as #4010 but self-adhesive with serpentine (die cut 11)

## KOREA DPR (North)

January 25, 2011

**NETHERLANDS****May 27, 2011**

1390a	1 (=46c)	“Wijn/Gist” (Wine/yeast)
1390b	1 (=46c)	“Penicilline/Schimmel” ( <i>Penicillium</i> /mold)
1390h	1 (=46c)	“Compost/Schimmel” (Compost/mold)
No Sc#	(10×46c)	Issued as a miniature sheet of 10 different including the above three stamps
No Sc#	(€9.95)	Issued in booklets containing five panes, each containing a horizontal pair of stamps from the sheet

**New (not yet numbered):****GUYANA**

One miniature sheet of six different mushroom stamps, one miniature sheet of four different mushroom stamps, and two souvenir sheets with one mushroom stamp each. All four sheets have mushrooms in the selvedge.

**IVORY COAST**

Three miniature sheets of four (two each of two mycologists) and three souvenir sheets (one mycologist each) for a total of nine mycologists to the present: Miniature sheets = (Anton DeBary and Henry Reginald Buller), (Lee Oras Overholts and William Alphonso Murrill), and (Elsie Maud Wakefield and Giacomo Bresadola). Souvenir sheets = Pierre Andrea Saccardo, Fred Jay Seaver, and Charles Horton Peck. Also note that the stamps in the souvenir sheets include one fungus each.

**KYRGYZSTAN**

Set of four mushroom stamps

**MOLDOVA**

Miniature sheet of six (three each of two different vignettes): Mushrooms in selvedge at lower left.

**MOUNT ATHOS**

Single €3.50 stamp in a set of five: Spiny puffball and monasteries.

**And for those who like to stretch their collections a bit:**

**Cocos (Keeling) Islands** have issued a sheet of 20 Coral Reef stamps of which one is the mushroom coral in the genus *Funghia*. Not a fungus but a *Funghia* sp.; close enough?
